Použitie

Veľkoplošná dlažba prináša na pešie zóny a chodníky mnohotvárnosť a dotvára atmosféru námestí. Výber viacerých tvarov a farieb umožňuje vytvorenie zvýraznených línií, ale aj množstva vzorov.

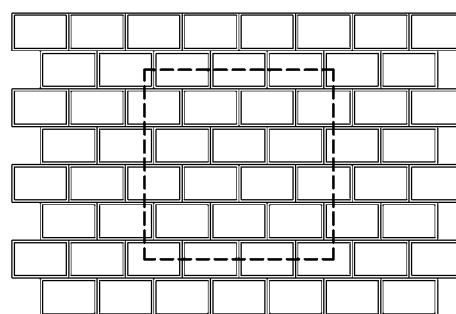

Tvar BIM jednoducho ukončuje plochu dláždenú do diagonály.

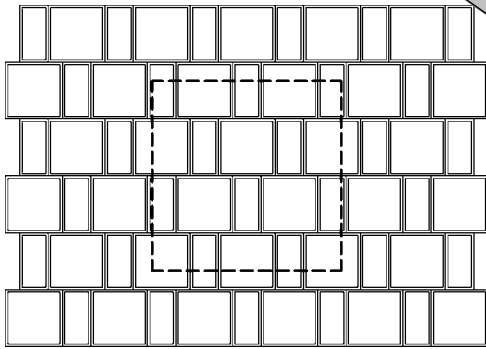

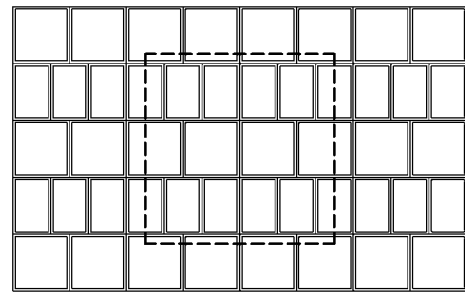

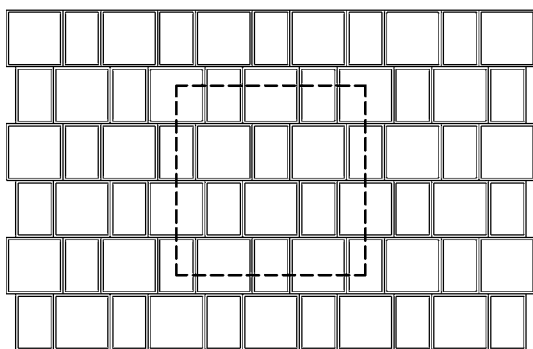

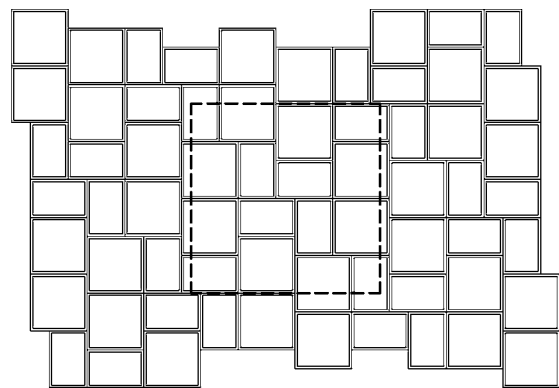

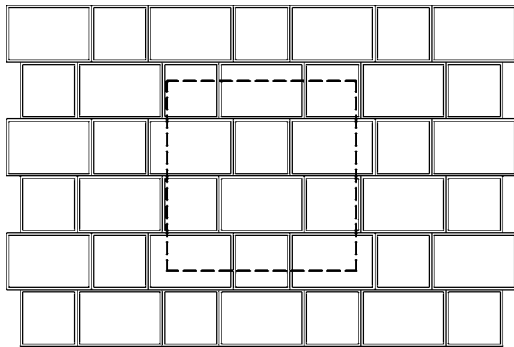

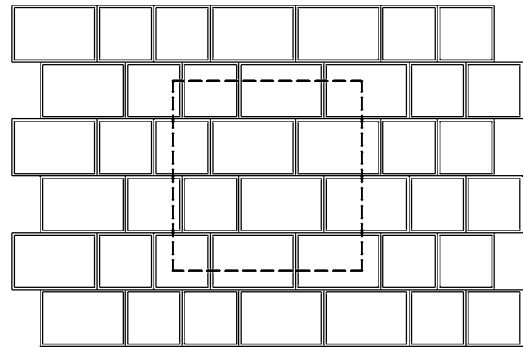

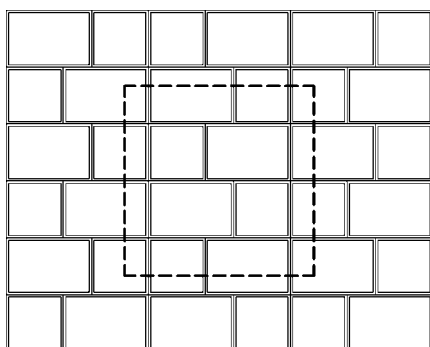

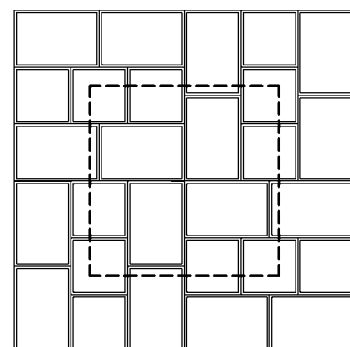

Na špeciálnu objednávku ponúkame dlažbu FORUM aj so štokovaným povrchom, ktorý jej dodáva prírodný vzhľad.
